technical solutions for control room

Roomdimensions Iberica, RDI, is a company that provides technical solutions for control rooms, focused on the manufacturing and exporting of high added-value technical furniture and ergonomic solutions for non-stop operation environments.

We have a wide range of products that enhance the management and the organization of the 24x7 operations environments and their annexed spaces, using at any time the appropriate product for the user's needs.

Operations and supervisor consoles, meeting tables, archive furniture, printing cabinets, auxiliary technical furniture, specific 24x7 chairs & ergonomic supports.

OUR CONSOLES RANGE:

**Kompas**  
CONSOLE

LITE

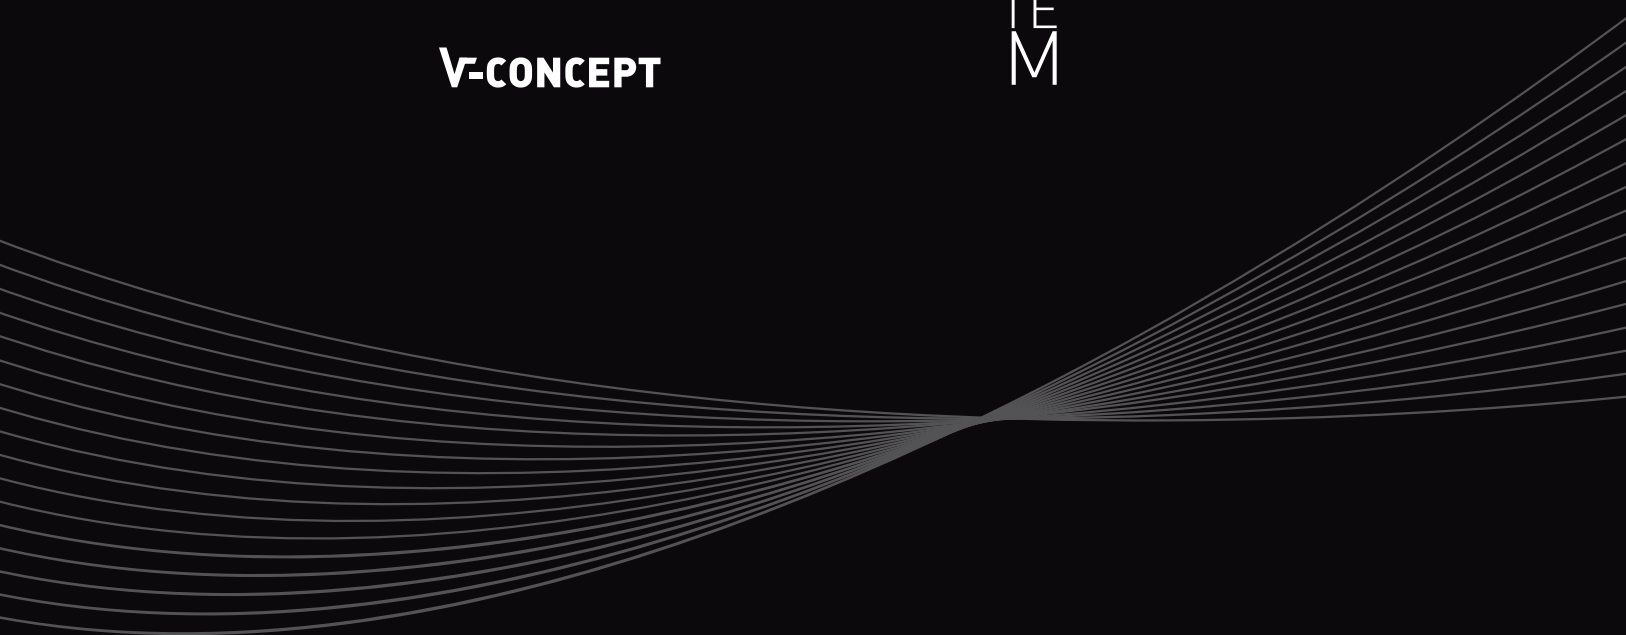

**CRAE**  
console

**MEETING**  
SOLUTIONS

**LWN**  
console

AV  
TO  
TE  
M

**V-CONCEPT**

## TECHNOLOGY

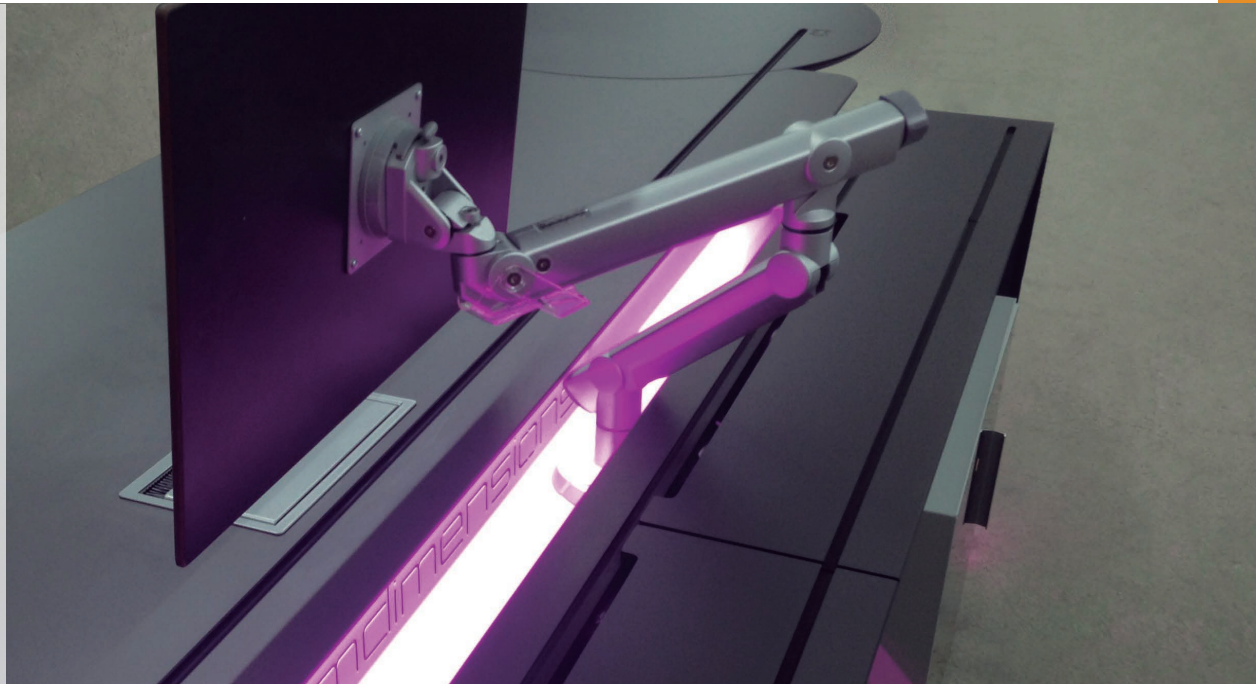

The main body of the product consists of a **Functional Arc** that allows the creation of all the settings and hosts all the structural elements of the configuration. The interior of the Arc is prepared to distribute the structured wiring and to locate the necessary sockets of power, voice and data.

## 24x7 ARCHITECTURE

The **KOMPAS console** range stands out as a new concept in the management and organization of high added value operations environments. It is a premium product of great formal simplicity, which allows creating endless types of configurations and providing a broad range of finishes.

## WE CARE FOR DETAILS

KOMPAS console is a system that allows a perfect organization and management of all the electronic and audiovisual equipment, ensuring a perfectly clean and tidy workspace.

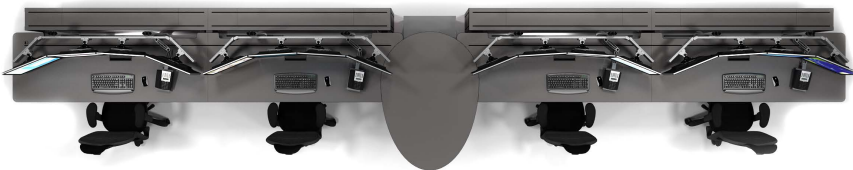

## FLEXIBILITY

The entire product range allows the creation of multiple configurations by changing the minimum of structural parts, permitting a high adaptation to the needs of the users and of the environments.

**Individual | Multiple linear | Multiple angular  
| Management | Meeting | Double sided.**

## CAPACITY

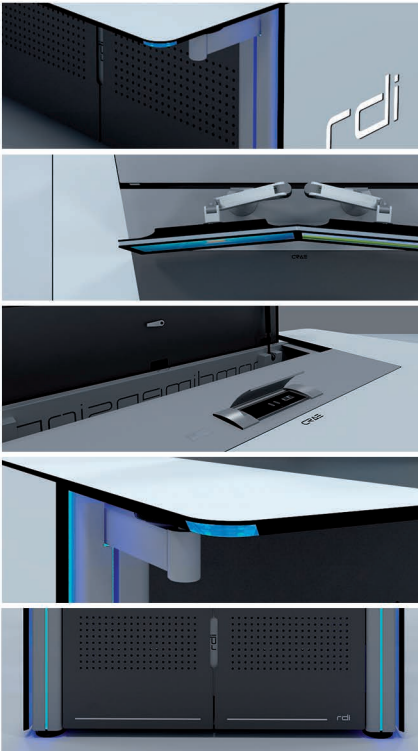

CRAE console is a new range of control console characterized by its capacity to perfectly organize and manage all the cabling infrastructure and the technological equipment in its interior.

CRAE CONSOLE

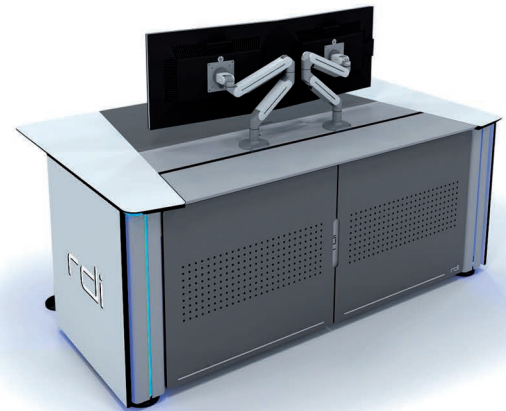

Customization

Ergonomics

Connectivity

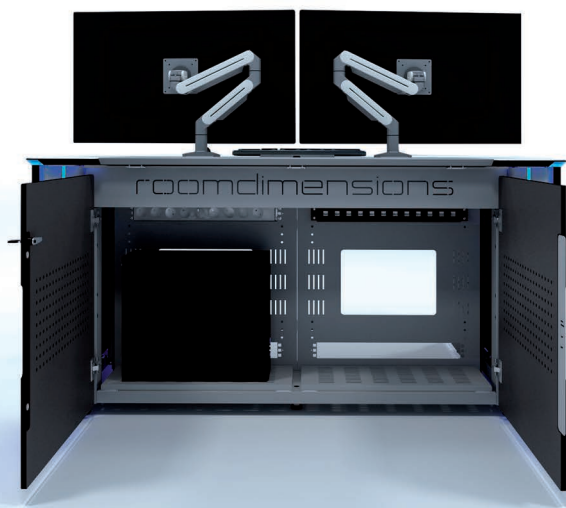

Lighting

Design

ACCESS

It ensures seamless access to the interior of the system via a hinged rear cover, which, at opening, leaves visible the large central cable duct which houses and organizes the entire cabling infrastructure as well as all other necessary electronic equipment.

## C O N N E C T I V I T Y

CRAE console enables the integration of 19" format connectivity elements into the cable duct as well as into each lateral side, generating a well organized and tidy internal infrastructure.

## M O D U L A R I T Y

The system is developed considering the technological needs of the environment, so that the same control console serves in case you have to integrate PC's in its interior, or use KVM extensors. Any **CRAE console** can thus simply integrate equipment compartments or maintain an entirely open structure, locating all the required technology inside the cable duct.

## TRADITION

LAN console is a solution aimed at organizing 24x7 environments which require fully effective and practical systems, able to integrate a large number of equipment within.

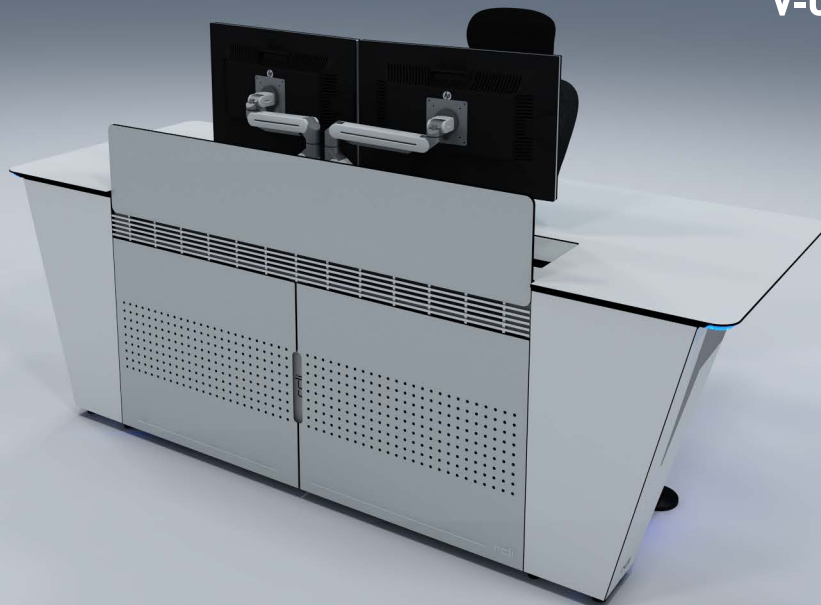

## ADAPTABILITY

The product range allows the creation of a large number of configurations and finishes, considering above all the integration or customization of the range depending on the equipment or systems which the customer must use. The LAN console is a product range aimed at control centers with a strong industrial character.

LAN  
console

## DESIGN

The **design** of the **V-CONCEPT console** is based on a simple, dynamic, light and minimalistic theme. The feet of the table are fully collected within the console, being integrated within the whole set. Allows easy modularity, creating multiple consoles, and is able to integrate an archive module annexed to the same structure of the console.

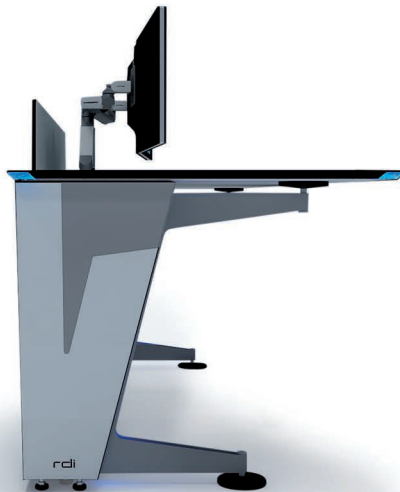

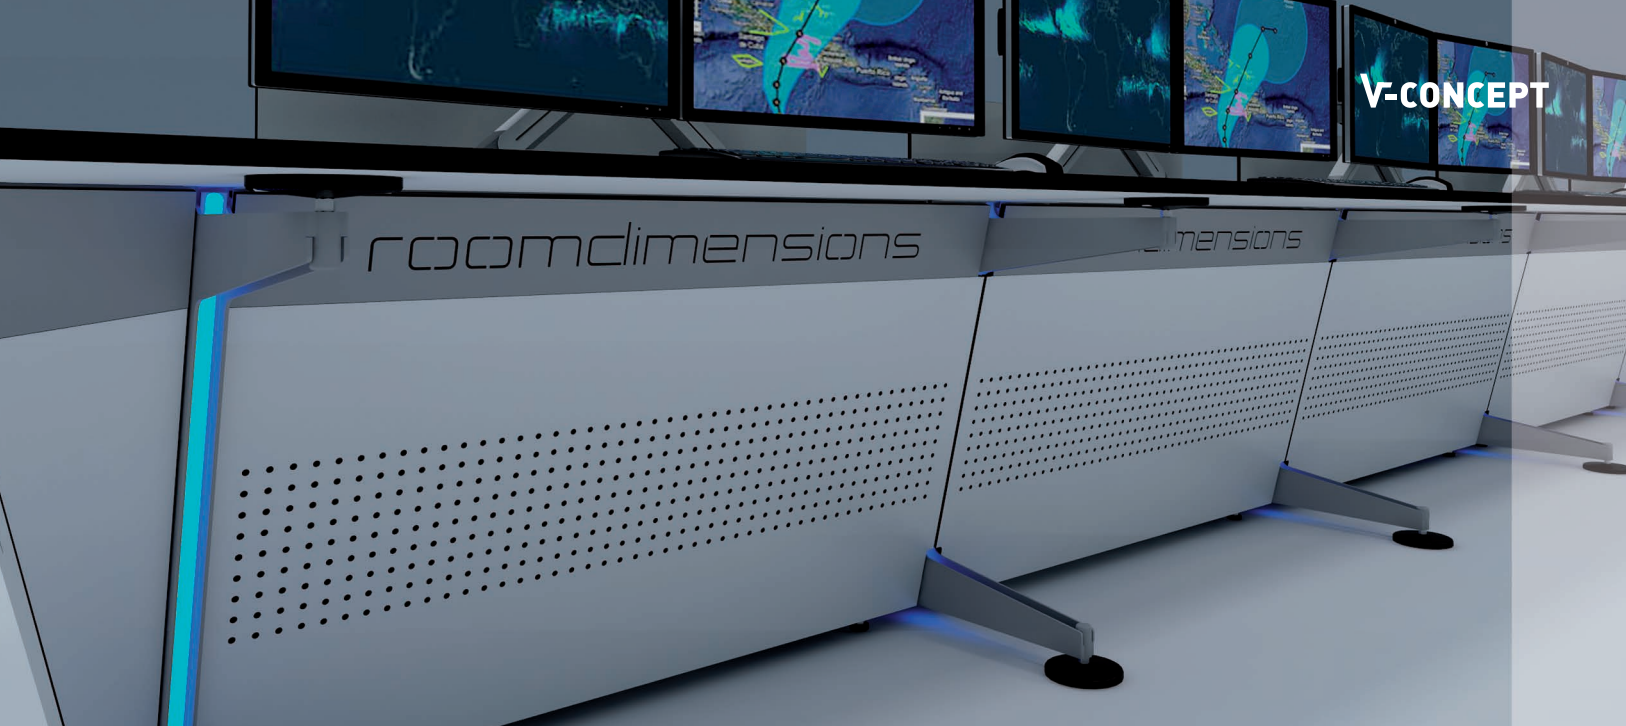

## ERGONOMICS

V-CONCEPT **console** guarantees a perfect organization of the working area, taking into account all the elements that a place of work of these features requires.

It allows the monitor placing all along the workpost and offers an easy and comfortable way to modify, add or remove monitors.

## COMPARTMENTS

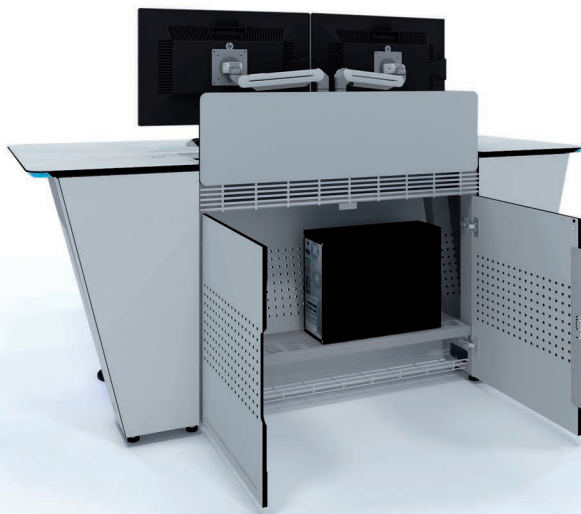

An **archive module** can be annexed, totally integrated with the design, shape and structure of the console. Has the capacity of installing equipment with 19" normalization.

## MODULARITY

Find the perfect solution for every single project. No matter which are the conditions. Let us find the best solution for your control room.

V-CONCEPT

## CONNECTIVITY

With three main connectivity zones, the V-CONCEPT CONSOLE is completely capable to manage any type of equipment: The **cab**le duct zone, the **tray** zone, and the **cab**ling drive zone.

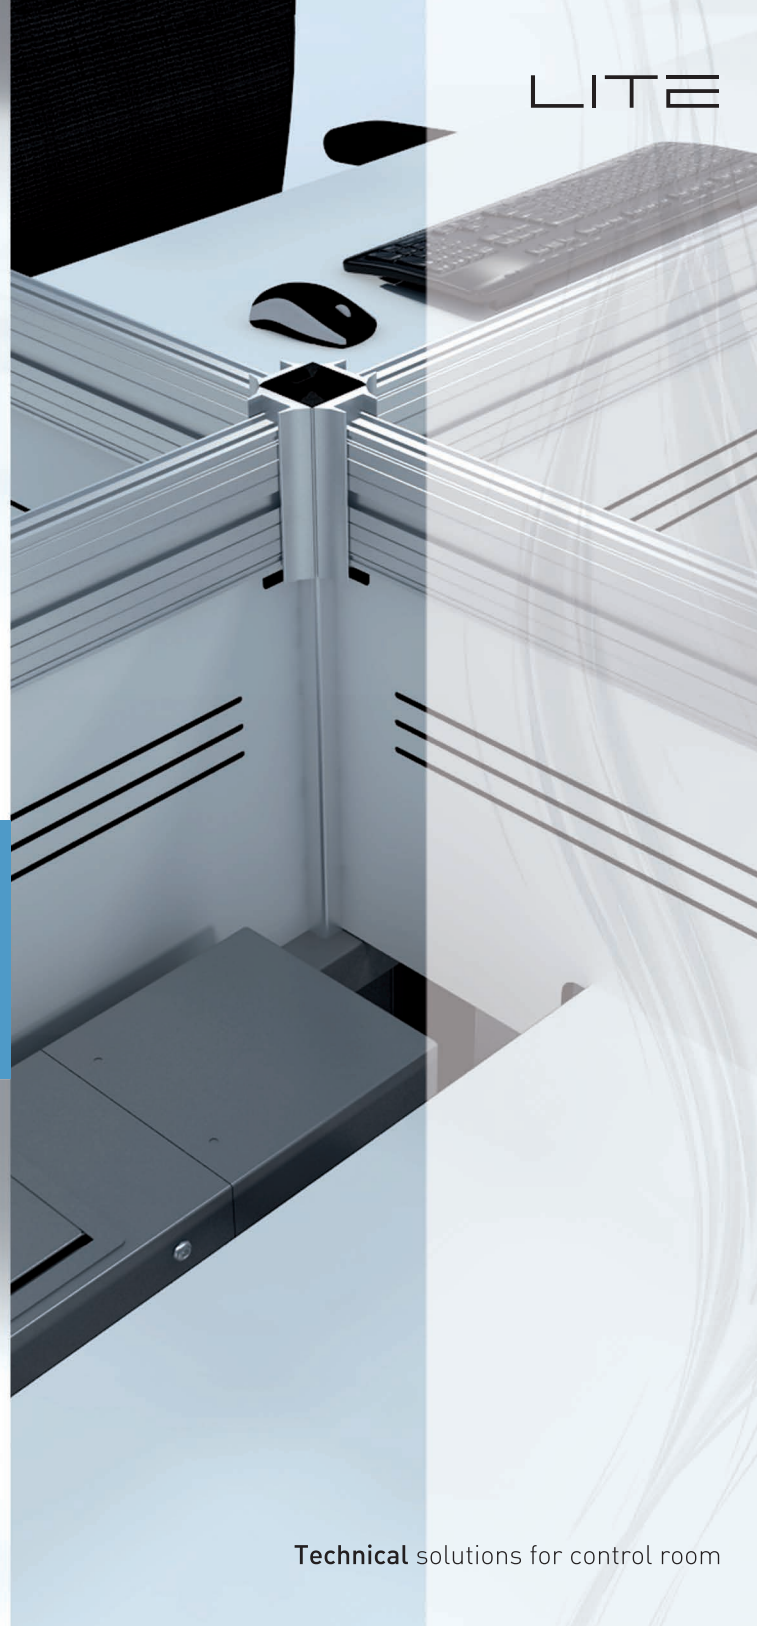

LITE

## ELEGANCE VS SIMPLICITY

The **LITE console** enables the creation of high quality administrative workspaces, placing the focus on the technical aspect of the furniture, which is the integration of connectivity and the quality of the cable management as well as the integration of ergonomic solutions.

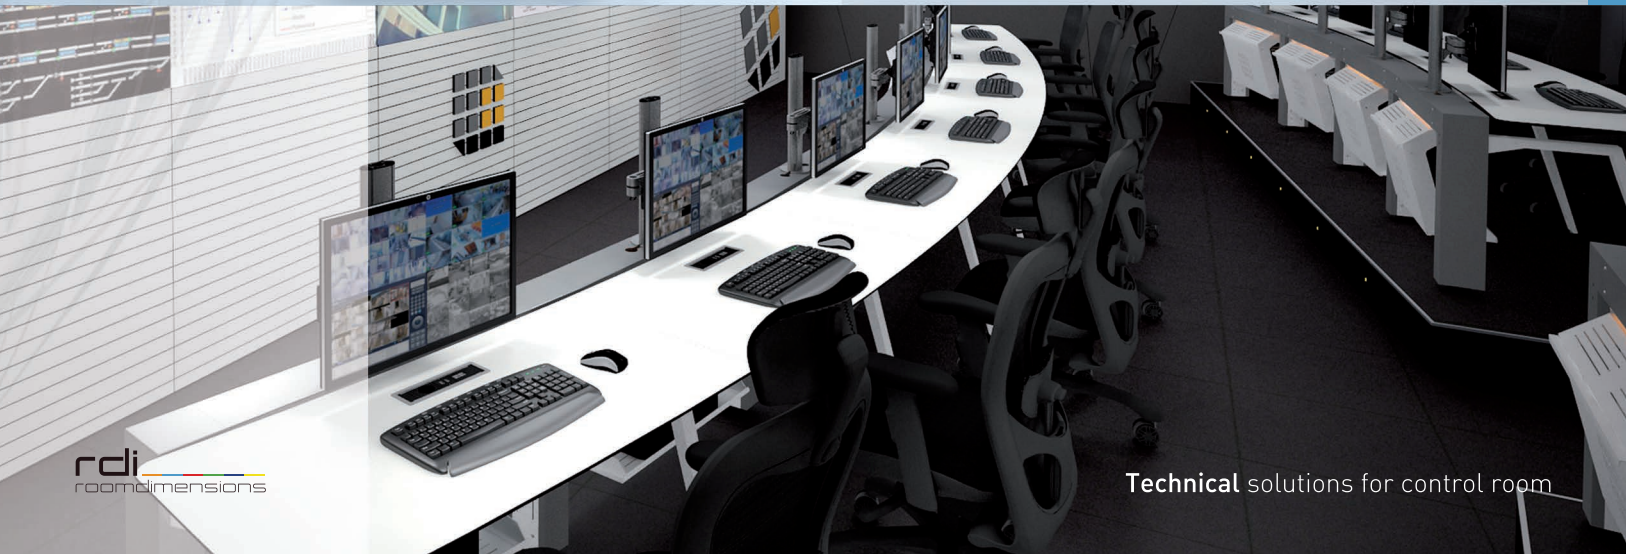

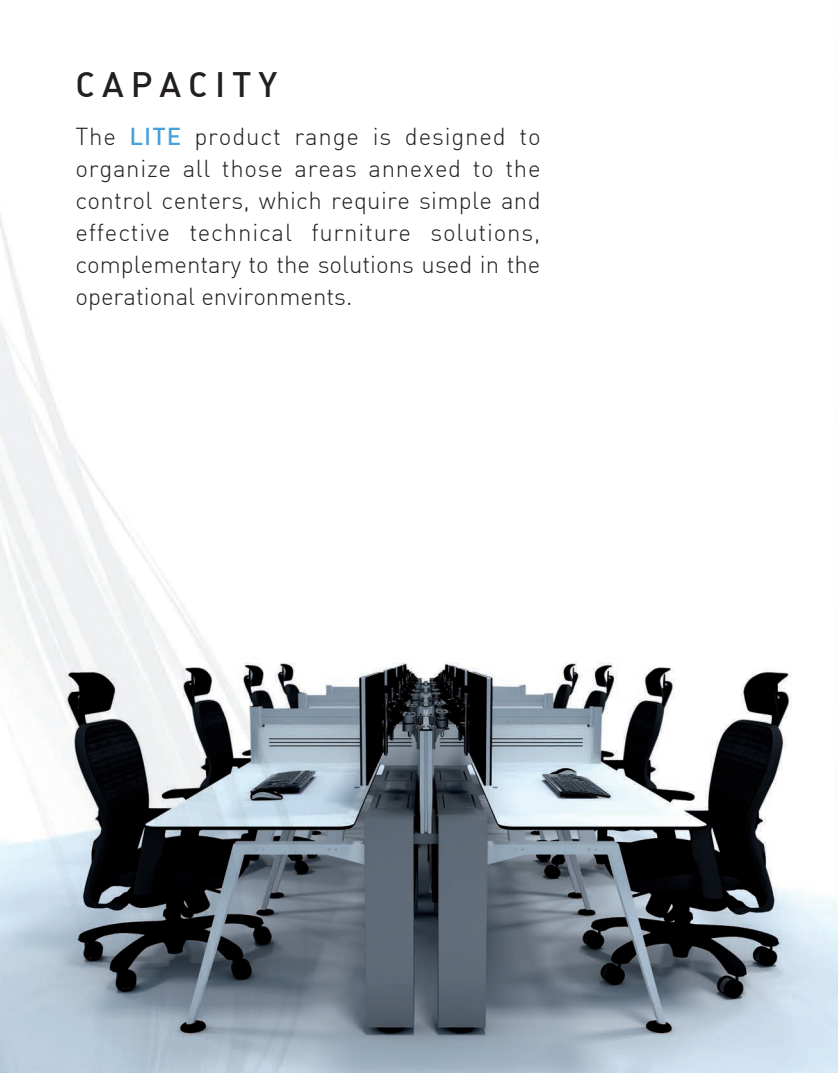

Technical solutions for control room

## CAPACITY

The **LITE** product range is designed to organize all those areas annexed to the control centers, which require simple and effective technical furniture solutions, complementary to the solutions used in the operational environments.

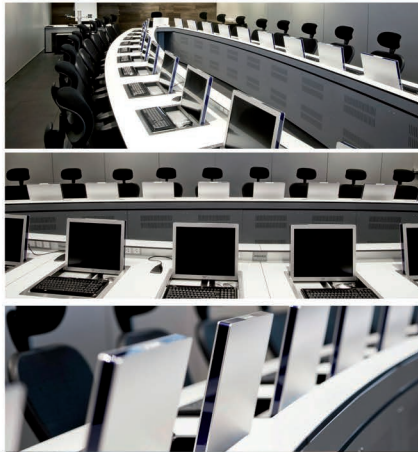

## DESIGN

**Meeting Solutions** is a concept with a strong technological imprint, highly robust and modular. It allows the integration of electronic equipment in its interior and a perfect organization and distribution of the entire structured wiring.

## AVANT-GARDE

**Meeting Solutions** is a technical concept especially designed for the organization of emergency and crisis environments that require a highly capable solution, able of a comprehensive integration of audiovisual, communications and connectivity solutions.

## AV TOTEM

El **AV Totem** es una solución audiovisual para salas de control, salas de crisis o cualquier otro entorno de operaciones. Su versatilidad hace de este totem un producto fácilmente integrable en cualquier espacio y cómodamente movable. Ideal para espacios reducidos como sustitución del clásico videowall o bien como refuerzo de visualización de datos en espacios grandes.

## ORGANIZATION

El **AV Totem** permite alojar en su interior equipos informáticos y otros componentes electrónicos accediendo de forma fácil desde la cara posterior. De esta manera, todo el equipo queda perfectamente organizado dentro de la estructura.

Se presenta en configuraciones de 2x1, 1x2, y 2x2. La versión de 1x1 tiene la opción de añadir 4 ruedas a la estructura para facilitar aun más su movilidad.

AV  
TOTEM

## ADAPTABILIDAD

Existe un **AV Totem** adecuado a cada espacio. Gracias a los soportes VESA se puede adaptar cualquier tamaño de monitor. La estructura está perforada interiormente para conducir el cableado.

CXO 6200D chair

## ERGONOMIC CHAIR FOR 24x7 ENVIRONMENTS

The **CXO Extreme** ergonomic solution is specifically designed for the management and organization of 24x7 operating environments, enabling the regulation of all its components in contact with the human body, and integrating padding solutions which ensure a high degree of user comfort and long life cycle to the product.
